U.S. DRY BEAN AND LENTIL EXPORTS IN 1979/80 HIGHEST ON RECORD

Dry Edible Beans

U.S. exports of dry edible beans in 1979/80 of 342,150 metric tons set a second consecutive record—35 percent over 1978/79. The dominant export class was pintos. Mexico, suffering from extensive drought in 1979, was the largest export market taking 95,544 tons—28 percent of all U.S. exports.

Great northern set a new record at 50,385 tons and the 73,276-ton exports of navy beans were exceeded only in 1969/70 and 1977/78. Algeria accounted for over half of all great northern exports and the European Community took 86 percent of navy bean exports. Red kidney bean exports at 38,190 tons and limas at 20,359 tons were also at record levels. The ten largest markets for U.S. dry edible beans in 1979/80 in descending order were Mexico, the United Kingdom, Algeria, Japan, the

Netherlands, Canada, Venezuela, Nicaragua, France, and the Dominican Republic.

Dry Peas and Lentils

Exports of peas at 90,946 tons were 11 percent above the 1974/75-1978/79 yearly average but 7 percent below the 1978/79 total. The 1979 carry-over of about 35,000 tons, combined with the bumper 1980 crop of 127,000 tons, has made for ample supplies for the current marketing year, particularly of green peas. Exports for the current marketing year (September 80/February 81) at 68,124 tons are running 64 percent ahead of last year. The largest markets for dry edible peas in 1979/80 were Colombia, Taiwan, Japan, the United Kingdom, Canada, Venezuela, Peru, and Brazil. These markets accounted for 63,252 tons—70 percent of total exports.

Lentil exports at 46,475 tons set a second consecutive record. Algeria took 21,141 tons, 45 percent of the total, and Egypt made its first purchase of U.S. lentils—5,455 tons under the Agency for International Development's Commodity Import Program.

DRY EDIBLE BEANS, PEAS, AND LENTILS: U.S. EXPORTS, QUANTITY AND VALUE¹
